

Immigrants Are Major Contributors to Nevada's Health Services

*An estimated **50,000** immigrants work in Nevada's health services, making up **24%** of Nevada's health services workforce.*

Immigrants of all backgrounds boost Nevada's health services. Some 34,000 immigrants, or about 69% of all immigrants in Nevada's health services, are U.S. citizens. About 8,000 are lawful permanent residents, and 1,000 are temporary immigrants on a nonimmigrant visa.

Dreamers—undocumented immigrants who came to the U.S. as children before 2021 and are either in school or have graduated from high school—number 2,000 workers in Nevada's health services. Some 1,000 are Deferred Action for Childhood Arrivals (DACA) recipients.

An estimated 1,000 immigrants working in Nevada's health services are waiting for a decision on their asylum claim.

Immigrant groups protected from deportation—DACA recipients, TPS holders, people seeking asylum, and those waiting for a permanent residency visa—**have access to work permits, making up an estimated 3,000 health services workers in Nevada.**
